

Eashan Adhikarla

10 Duh Drive, Bethlehem, PA - 18015 * +1(650)695-9272 * eea418@lehigh.edu

[eashanadhikarla.github.io](https://github.com/eashanadhikarla) in [eashanadhikarla](#) [eashanadhikarla](#)

OBJECTIVE

To acquire a challenging research internship role utilizing my skills in Deep Learning, and Computer Vision.

EDUCATION

Lehigh University,
Ph.D. in Computer Science (Machine Learning)

Bethlehem, PA, USA
Aug 2020 - Present

Lehigh University,
M.S. in Computer Science

Bethlehem, PA, USA
Aug 2018 - May 2020

Rajiv Gandhi Proudhyogiki Vishwavidyalaya (RGPV),
B.E. in Computer Science

Bhopal, MP, India
Aug 2013 - May 2017

EXPERIENCE

Lawrence Berkeley National Laboratory (LBNL)

Berkeley, CA

Ph.D. Summer Intern (ESnet), (Supervisor: [Dr. Ezra Kissel](#))

June 2021 - Present

- Developing system control & traffic control in the DTNaaS docker container and providing traffic control - pacing support.
- Retrieve & analyze real-time elastic search data Data transfer nodes for real-time parameter optimization.
- Deploying a self-supervised approach to predict data-transfer parameters, path provisioning, protocol evaluation.
- Providing support for integrating storage systems on 100 Gbps testbeds for CUBIC and BBRv2 performance analysis.

Lehigh University

Bethlehem, PA, USA

Peer Mentor, (Supervisor: [Dr. Brian D. Davison](#))

May 2020 - Aug 2020

- Led a session each week for 15 REU interns in one-to-one meetings, focusing on their conceptual understanding and development.
- Funded by NSF — [CNS-1757787](#)

Resilience Research Group for SARS-CoV-2

Bethlehem, PA, USA

Research Assistant, (Supervisor: [Dr. Brian D. Davison](#))

May 2020 - Aug 2020

- Image Gathering for face masks in the United States and designing a novel face-mask detection algorithm for a data science survey research on SARS-CoV-2.
- Funded by Lehigh Research Grants.

Lawrence Berkeley National Laboratory (LBNL)

Berkeley, CA, USA

Research Intern (NERSC), (Supervisor: [Dr. Brian Austin](#))

May 2019 - Aug 2019

- Developed scripts to fetch and analyze petabytes of data from the SLURM scheduler.
- Analyzed & estimated real-time queues in the scheduler for optimizing the policies for incoming jobs.
- Developed three real-time policies that potentially improved the allocation procedure.

Persistent Systems

Pune, MH, India

Machine learning Intern, (Supervisor: [Dr. Bhushan Garware](#))

May 2019 - Aug 2019

- Developed a facial recognition and verification system using Google's FaceNET research as the baseline which can directly learn from the 128x128 low dimensional representation.
- Added additional OpenCV features on top of it, which can differentiate between 3-D and 2-D images (a drawback of Google's FaceNET)
- Designed a purely browser-based RSA compliant module to work with FIDO keys.

PUBLICATIONS

- Exploring the use of the BBRv2 Congestion Control Algorithm for use on Data Transfer Nodes, Under Review, 2021
- Face Mask Detection in real-world Webcam Images, ACM GoodIT, 2021
- Memory Defense: More Robust Classification via a Memory-Masking Autoencoder, Under Review, 2021
- Estimating an HPC Facility's Capacity For Accommodating Real-time Workflows, [Thesis](#) NERSC, 2019

RESEARCH PROJECTS

Memory Defense: More Robust Classification via a Memory-Masking Autoencoder

Aug 2020

- Designed a robust auto-encoder for detecting adversarial images to mitigate adversarial attacks in a machine learning model.
- Designed a close proximity approximation estimator which can distinguish between distinct and distance manifold from different classes.

Face-Mask Detection on real-world Webcam dataset

Feb 2021

- Successfully collected ~1010 Gb of public webcam data, by capturing image frames periodically from over 80 webcams across United States.
- Applied Coco-annotation semi-automated labelling to develop ground-truth labels.
- Re-implemented 4 state-of-the-art face detection algorithms for face detection & face mask detection to analyze their effectiveness in real-world dataset.
- Reported face mask usage across United States from Jun 23' 2020 to Feb 10' 2020.

Sequence Generative Adversarial Nets with Policy Gradient

Jan 2020

- Seq-GAN is a unique approach which models the data generator as a stochastic policy in reinforcement learning to solve the problem with improvements in pre-processing.
- The RL reward signal comes from the GAN discriminator judged on a complete sequence, and is passed back to the intermediate state-action steps using Monte Carlo search.

Facial Recognition and Verification System

Jan 2017

- Working with the accuracies and flaw removal strategies with re-implementation of Open-Face, for improving the range of applications in the domain of Security.
- Resolved the false positive 2-D inputs by introducing more features in Stage 1 (face detection) as a.) Orientation Normalization b.) 3D surface representation.

PEER REVIEW

- ACM SIGIR Conference on Research and Development in Information Retrieval
- IEEE Big Data Conference

Spring 2021
Fall 2020

SKILLS

Programming Languages - C++, Python, Bash, Scala

Web Backend Technologies - MySQL, MongoDB, NoSQL, HTML5.

Web Frontend Technologies - Pytorch, Tensorflow, OpenCV, dlib, Boost-C++, Cmake, scikit-learn, Docker, Kubernetes, Apache Spark, git, Latex

TEACHING ASSISTANT

- CSE 017 - Programming and Data Structures
- CSE 017 - Programming and Data Structures
- CSE 160 - Introduction to Data Science
- CSE 001 - Breadth of Computing

Fall 2020
Fall 2019
Spring 2019
Fall 2018

ACHIEVEMENTS & AWARDS

- **PC Rossin Fellowship**, Lehigh University (Spring 2021)
- Awarded by Cognizant, for the **Outstanding Project Award** in Facial Recognition with Deep Neural Network (2016-17)
- **Best Project Award** by the Department of Computer Science in RGPV university for 'Physical Intrusion Detection System' (2015-16)
- Ranked among **top 1 percentile** in TESTimony'16 organised by Tata Consultancy Services. (2015)
- Awarded by H.C.Verma (Experimental Physicist): Winner of the **National Level SCIECS'16**: Quiz Competition organised by National Institute of Technology, Bhopal (MANIT). (2015)
- Awarded a Trophy from **Central Board of Secondary Education** (CBSE) for performance in English subject (2013)
- Presented a Abstract Paper on Shell-shock Vulnerability at **National level technical symposium** in Bhopal that explained about how the attack vector works, the risks involved and how to mitigate them.
- **All India Rank 598** in International Maths-Science Olympiads (2007)
